

HUMS - MMEA 86

Mrs. Hill
MMEA-86

Mission Statement

Provide assistance to Marine
Corps Families in their time of
need .

HUMS PTAD

- Most Common Request
- Given in an attempt to fix HUMS
- 180 Days in 90 day chunks
- No funding associated
- SNM assigned DCC RE-3C

HUMS TR

- Should only happen if valid structure exists
- Exceptions given case by case
- SNM assigned DCC RE-3C

HUMS DISCHARGE

HARDSHIP Discharge

- Marine must request
- Parent commands have CG authority per MCO P1900.16E para 6407.1
- MMEA 86 will only process a Marine's requests in PTAD status

RE-3C

- Non-Punitive
- Used for tracking purposes
- SNM cannot gain further obligated service
- Naval Message to remove
- Situation MUST be resolved

Transfer by Service Record

- MCO 6320.2E
- Used for Marines hospitalized away from parent Command
- Greater than 90 days treatment
- Closest USMC activity/responsible unit will provide Parent Command data
- MMEA 86 will effect TR

Organ Donation

- BuMedInst 6300.8
- Request must be sent to CMC
- SNM counseled on rights and benefits
- Compatibility testing is completed in a leave status
- Donations must be at no cost to Government
- Not an assignment consideration

Other Considerations

- Marines pending legal action/PEB/Ad Sep only eligible w/terminally ill family member
- HUMS ICW TR/FMCR (retirement)
 - Can be if meets req'ts TOS/TIS/TIG
- Foreign HUMS - done ICW MSGBN
 - SNM cannot use Embassy - but will work MSG traffic through MSG

Other Considerations

- EFMP
 - MCO P1754.4A
 - MMEA 86 works closely w/EFMP coordinator
 - EFMP does not issue PCSO – occasion may exist that HUMS TR is effected for family care
- Legal Matters
 - Use leave – same for divorce. Will be considered if children involved.

Final Note on HUMS

Remember the Human side - not just the business rules. Treat the Marines as you would want your family to be treated
